NO. 88. VOL. 7.] NEW WESTMINSTER, WEDNESDAY, DECEMBER 18, 1867. [PRICE 6d. or 12 cts.

JAPAN AND JAPANESE TRADE.

(From the Hamilton "SPECTATOR.")

When the whole of British America from Newfoundland to Vancouver Island, is united in one Confederacy, as it soon will be, and when a means of ready communication with the shores of the Pacific is established, as ere long we trust will be the case, the people of Canada will suddenly find themselves brought into comparatively near contiguity to a people of whose internal history and social condition we know very little. Our ideas of Japan and the Japanese people are, of course, chiefly formed from the specimens of the race with whom we have occasionally come in contact, and those ideas are sufficiently vague. The common opinion would seem to be that the inhabitants of Japan spend the greater portion of their time in performing sleight of hand tricks, balancing themselves on poles with their heads downwards, and plaiting their back hair, generally terminating their mortal existence, by ripping themselves up with a blunt knife and a smile of ineffable beatitude. These ideas, however, are on the whole erroneous—the Japanese are not a nation of jugglers and suicides, and although they have many customs that may seem strange and very disagreeable to us, they are quite capable of making a bargain and engaging in commercial pursuits in which they display an amount of shrewdness and sagacity which would do credit to any "down East" Yankee.

The nations of Europe comparatively speaking have only recently found this out; Japan only a very few years ago being almost an unknown country. Of late years, however the value of the Japanese trade seems to have been fully recognized, and there appears to be a constant and ever increasing rivalry between the leading commercial nations of the world as to which shall secure the largest share of a commerce which bids fair to be of equal value to that of the Celestial Empire itself. So far Great Britain has by dint of her enormous marine and the surpassing wealth and enterprise of her merchants appropriated the largest share of the Japanese trade. The United States have to use a sporting phrase, "run an exceedingly good second." The Americans see, however, that so long as the trade between New York and Japan has to be carried on by sea there is little chance of their being able to compete successfully with Britain. But they hope, and with good cause, that as soon as their Pacific railroad is completed and the distance between Jeddo and the American commercial capital so materially shortened, a far larger share of the trade and commerce of Japan will fall into their hands, and that Great Britian will be compelled to take a second place. No one can deny that this hope is based upon reason and common sense. New York and Jeddo will practically be brought some thousands of miles nearer to each other, and the time occupied in the transfer of commodities will be reduced considerably more than one half. The journey from Jeddo to New York will then be a trifle compared with a voyage from Jeddo to London, and all the wealth and other advantages which the British merchants possess will avail nothing. It would be well for the great capitalists of Britain, men who are now freely adventuring thousands of pounds in the Japanese trade, to bear these fact in mind. The Pacific Railway is not built yet, but thanks to British capital which is being expended upon it, we may rely upon it that it soon will be completed in spite of Indians and geographical and climatic hindrances. And neither the prestige of Britain's name nor the display of her naval power, nor the extent of her commercial marine will be of any avail to persuade the simple minded but astute Japanese from following that rule which prevails all over the world, viz, to "buy in the cheapest market," and that will undoubtedly be the American market.

There is, however, a way in which the largest share of the commerce of Japan may still be preserved to Great Britain, and British merchants be enabled to compete successfully with these of the American Republic. By assisting in the development of this country, by employing their money in building a railroad across British instead of across a foreign soil, the merchants and capitalists may render that commerce permanent which is fast assuming such immense proportions, but which, in a very brief space, must be considerably curtailed, unless the proper means are taken to prevent it. There are plenty of persons, in Canada and at home, who will be inclined to sneer at the idea of such a thing as a railroad from Halifax to New Westminster; but we have the words of an eminent English engineer to assure us that such a project is not only altogether practicable, but that, by following a certain line, to which he alludes, there are few engineering difficulties in the way. Such a railroad built across our territory would afford one of the surest guarantees for the permanence of British influence in the East that could possibly exist.

Of course, there is the one disadvantage of re-shipment, which, to some extent, militates against a transcontinental route, but this is one which, from the nature of the Japanese trade and the character of the various articles which would form the principal commodities of trade, would not be very serious when the saving in time is considered. At all events, the merchants of America do not seem to believe that the transfer from the steamer to the cars at San Francisco will be any serious hindrance, and they look forward hopefully to the completion of the Pacific railroad as certain to afford them a means of monopolizing the larger portion of the Japanese trade.

A STORY WITH A MORAL.—A Connecticut exchange tells the following stary of a boy who was sent from Croton, Connecticut, to New London, one day last summer with a bag of corn. The boy was gone all day, returned with the bag unopened, which he dumped on the floor, saying:—"There's your corn; go and sell it, I cant."

"Sold any?"

"No, I've been all over London with it, and nobody said anything concerning green corn. Two or three fellows asked me what I had in my bag, and I told them it was none of their business what it was."

The boy is not unlike hundreds of merchants who will promptly call him a fool for not telling what he had to sell. They are actually doing the same thing, on a much larger scale, by not advertising their business.

THERE are twelve Universities in the Dominion of Canada. The oldest is King's College, Windsor, Nova Scotia, which received its charter in 1802; and the youngest, Ottawa and Regiopolis, which were chartered in 1866. Nova Scotia and New Brunswick have no Medical School, and some of the other Universities mentioned have never had organized classes except in Divinity and the Arts.

IN the Dominion of Canada there are about one hundred and thirty journals published, of which about thirty are dailies. The number of habitual readers of newspapers is understood to be about 400,000, or, nearly, say, half-a-million. It would be very difficult to estimate the influence thus exerted for good or evil.

VICTORIA JURIES, OR JUSTICE vs. POPULAR PREJUDICE.

It is not very often that we have anything to say respecting the manner in which Victoria Juries occasionally dance their "eightsome reel" before the Seat of Justice; but a notable case of recent occurrence demands some notice; more, however, because of the important ruling of the Judge than on account of anything novel in the conduct of the eight gentlemen in the box. We allude to the smuggling case recently tried at Victoria before Judge Needham, and designated in the local prints as "Hamley vs. Baranoviez." The Plaintiff in this case was the Collector of Customs, and his cause was briefly as follows: The Defendant, a person who enjoys the reputation of having more than once supplied our coast Indians with fire-water which had never paid duties to Her Majesty, was charged with having taken spirits from Victoria in March last without paying duty of Customs thereon, and sold and bartered the same to Indians at the settlement of Kithkathla, and action was brought to recover a penalty of £100 for the offence. The defence set up two pleas; first, that the Defendant did not commit the offence; and secondly, that if he did land the goods at Kithkathla, it was no offence, as Vancouver Island was at that time a part of British Columbia, and no duty could be legally collected upon goods brought from one part of the Colony to another. Before evidence was gone into Mr. McCreight, Counsel for the Defence, addressed the Judge, claiming that there was really no case to go to a Jury and that the Plaintiff should be nonsuited and ruled out of Court, on this ground, that admitting, *as they did*, that the spirits were landed at Kithkathla, they were liable to no duty, having been brought from one part of the Colony to another part, and not from a place beyond the Colony. In support of this the Imperial act of Union and the several local Acts, after being quoted from by the learned Counsel, were passed up to the Judge. His Honor read the clause declaring that, "the laws in force in "the separate Colonies of British Co-"lumbia and Vancouver Island res-"pectively, at the time of union tak-"ing effect shall, until it is otherwise "provided by lawful authority, re-"main in force," and said that this clause alone would have been sufficient to make it perfectly legal to collect duties on goods brought from Vancouver Island to the mainland! That was the law before, and it remained in force, no other lawful provision having been made to supersede or change it; but, as if to make the law clear and unmistakable, a sentence followed which gave it a sort of cumulative force:—"save only that the "laws relative to the Revenue of Cus-"toms in force in British Columbia at "the time of the Union taking effect "shall, until it is otherwise provided "by lawful authority, extend and ap-"ply to Vancouver Island." In his judgment there was not a shadow of a doubt. There were weak minds, he said, stupid minds and ill-informed minds; and for these the Declaratory Ordinance of the local Legislature was highly desirable and proper; but no man, he added emphatically, capable of understanding the Imperial Act could entertain a doubt for a moment on the subject. He went farther and declared that the collection of Duty of Customs upon goods brought to the Mainland from Vancouver Island was not only clearly and abundantly justified under the Imperial Act, but that it was a just and equitable proceeding, and that the result of the discontinuance of that collection had been to favor a few individuals, to the manifest disadvantage of the rest of the tax-payers in the Colony! To all this there was no reply. The Counsel had given their opinions, as others before them had done. The Judge gave the law and his interpretation of that law. It were impossible to describe the effect of this legal thunder-bolt, so unexpectedly projected into the midst of a Victoria audience. The gentlemen with periwigs adorned looked "small potatoes," so to speak—looked askance and chap-fallen, as if asking themselves the question, "Do I belong to the class for whose especial benefit the Declaratory Ordinance was passed?" The eager, gaping crowd outside the Bar—many of them awaiting a far different ruling, which would have been the signal to overwhelm the Collector of Customs with actions for damages and duties paid under protest—how did they receive the announcement? Very much as their progenitor received the judgment of Portia. Well. The case proceeded, and on the part of the Crown it was clearly proved by one white man and two Innians that the spirits had been landed at Kithkathla. These Crown witnesses swore positively to having seen the spirits landed. The white man had assisted in landing it—the Indians bought it, drank it, traded skins in exchange for it. In opposition to this the Defendant himself had said at the Custom House, when he was not under oath, that he had not been on the mainland at all. Another white man called for the Crown, had stated in the Magistrate's office, not in the Supreme Court, that the vessel had not been at Kithkathla; but it was given in evidence that his testimony had been of such a character as to call forth a caution against the penalty for perjury from the Magistrate. The Judge, in charging the Jury, clearly pointed out that it was for them to find whether the spirits had been landed, and that it rested alone with the Court to decide as to the legality of the collection of duties. Yet, with this conclusive evidence before them, really uncontradicted by any rebutting evidence, in fact with the admission on the part of the defence—for the Counsel for the defence had in reality waved the first count, and thrown itself on the second—that the spirits were landed, with these facts before them, and with their duty so clearly defined by the Judge, these eight men, without even retiring for consultation, found a verdict for the Defendent, coupling that verdict with an expression of opinion that the collection of duties was, under the circumstances, unjustifiable, the clear and emphatically expressed opinion of the Judge, and the palpable fact that they had nothing whatever to do with that point of law, to the contrary notwithstanding! It is needless for us to say what we think of that verdict. Everyone can think and arrive at conclusions for themselves: and, we imagine, all must arrive at pretty much the same conclusion. But there is a point involved in this matter of even greater interest to us than the manner in which these eight men discharged the sacred obligations laid upon them. Of the mischief that has followed from the abandonment of the collection of duties on goods on the Island at the time Union took effect it would be useless now to speak. The Government yielded in a moment of weakness, against their judgement to the clamor of the people of Victoria. The deficiency in the Revenue and consequent inability to meet current expenses, to say nothing of removing obnoxious imposts and undertaking much needed public works, has undeniably been one of the consequences. Nor is the evil likely to terminate with the present year. We shall probably suffer in 1868 as we have suffered in 1867, and it is hard to say where or when the injury will terminate. In the course of the trial great stress was laid upon the alleged hardship shown to the Defendant, in keeping his vessel under seizure so many months; but this was entirely owing to the proceedings on his own side. The case might have been settled in an hour by the Stipendiary Magistrate, in June, if the Defendant's Counsel had not, by a written request, succeeded in getting it removed to the Supreme Court. Again, when the Indian witnesses arrived in July, an offer was instantly made on the part of the Government to go to trial at once, but the Defendant's Counsel refused their consent. There is reason to believe that the real question of the collection of duties in this matter has not, by many people, been properly understood, as the Defendant's Counsel repeatedly spoke in Court of the "double duties." Now every merchant in Victoria, trading to the upper country must know that double duties were never in any instance collected. If the duty was paid at Victoria it was never charged again on the goods reaching the Mainland. It was at the option of the importer to pay at Victoria or at New Westminster; but in no instance and under no circumstances was he called upon to pay a second time. The charge against the master of the "Gazelle" was that no duty had ever been paid on the spirits at all, and that on their being landed at Kithkathla the duty by law became due and recoverable. An application was made on the part of the Crown, on the following day, to set aside the verdict, upon the ground that it was a perverse verdict and opposed to the weight of evidence. This was, of course, granted, and the case will be heard afresh at the Assizes in January, and it remains to be seen whether eight men cannot be got in Victoria to return a verdict in harmony with the clearest evidence.

AYER'S

MEDICINES.

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses**, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

BOOKS

suitable for Holiday Gifts.

Gold, Silver and Colored papers for making fancy articles for the "CHRISTMAS TREE."

The British Columbian.

WEDNESDAY, DECEMBER 18, 1867.

DOMINION ITEMS.

It was generally believed that the Hon. Judge Wilmot would receive the appointment of Lieutenant Governor of Ontario, and that the Hon. A. G. Archibald, the late Dominion Secretary, would receive a similar appointment for the province of New Brunswick. The Canadian press favors this mode of selecting the Lieutenant Governors from provinces other than those over which they are called to rule, thereby keeping them clear of local party distinctions. Amongst the last of *John Toronto's* official acts was the promulgation of a pastoral letter addressed to the clergy of his diocese, appointing the 10th Oct. as a day of thanksgiving to Almighty God for the abundant harvest. In consequence of urgent representations made to the Lieutenant Governor of Quebec energetic measures had been taken to relieve the distress existing amongst the Labrador fishermen, owing to the insufficient yield of the fisheries there. Mr. Bouchette and Mr. Worthing, who filled the positions, respectively, of Commissioner and Assistant Commissioner of Customs and Excise, under the old dispensation, have, under the new, been appointed respectively Deputy-Minister of Customs and Deputy-Minister of Excise.

His Excellency the Governor General has been pleased to appoint John Fennings Taylor, Senr., Esq., to be Clerk of the Senate of Canada; Rene Kimber, Esq., to be gentleman-usher of the Black Rod; William Burns Lindsay, Esq., to be Clerk of the House of Commons of Canada; Donald William Macdonell, Esq., to be Sergeant-at-Arms of the House of Commons of Canada; and

J. F. Taylor, R. Kimber, Robert Lemoine and Fennings Taylor, Esqrs. to be Commissioners to administer oaths to Members of the Senate of Canada; and

William B. Lindsay, D. W. Macdonell and Gustavus William Wicksteed, Esqrs., to be Commissioners to administer oaths to Members of the House of Commons of Canada.

A curious catch of about 80 black fish, worth $15 each, was recently made in one haul by the fishermen of of Cow Bay, Cape Breton. A rich seam of excellent coal has been discovered in the western part of the town of Picton. Some very fine specimens of Gold had been discovered at South Branch on the Upper Stewracke, in Nova Scotia. The discoveries of gold mines continue to be made in the Eastern Townships of the Province of Quebec, and new companies are being formed to develop their wealth. The local papers speak of the gold excitement in that part as resembling the California gold-fever of 1849 and 1850.

THE IRISH CHURCH.

We mentioned the other day that the Irish Roman Catholic Prelates had met at Dublin, in the beginning of October, and had passed a series of resolutions relative to the Established Church, and the proposed endowment of their own. These resolutions have been published in the *Freeman's Journal*, and are as follows:

"The Archbishops and Bishops of Ireland, seeing that the Government and Parliament are preparing to deal by law with the Irish Protestant Church Establishment, deem it their duty to declare—

1. That the Irish Protestant Church Establishment is maintained chiefly almost exclusively, by property and revenues unjustly alienated from the rightful owner, the Catholic Church of Ireland—that Irish Catholics cannot cease to feel as a gross injustice and as an abiding insult the continued, even partial maintenance of that Establishment out of that endowment, or in any other way at their expense—an Establishment to which, as to their fountain-head, are to be traced the waters of bitterness which poison the relations of life in Ireland and estrange from one another Protestants and Catholics who ought to be a united people.

2. That, notwithstanding the rightfull claim of the Catholic Church in Ireland to have restored to it the property and revenue of which it was unjustly deprived, the Irish Catholic Bishops hereby re-affirm the subjoined resolutions of the Bishops assembled in the years 1833, 1841 and 1843; and, adhering to the letter and spirit of these resolutions, distinctly declare that they will not accept endowment from the State out of the property and revenue now held by the Protestant establishment, nor any State endowment whatever."

Then follows a copy of the resolutions refered to above, together with a long series of resolutions upon the subject of education, disapproving of the National system, enjoining the priesthood to use their best exertions to withdraw children from the national schools as being specially dangerous, and recommending that a petition be sent to Parliament, praying for such a change in that system as may afford to their church all the advantages to which they are entitled. The whole series is wound up by the following resolution:—"Whilst we warn our flocks against the criminal folly of engaging in secret societies or open insurrection against the government of the country, we also declare to the Government and the Legislature our profound conviction that peace will never be permanently established in Ireland till the Protestant Church is totally disendowed, education in all its departments made free, and the fruits of their capital and labour secured to the agricultural classes."

AN APPEAL TO THE LADIES.

A very pleasing and encouraging feature of the newly organized Agricultural Society is that eight ladies have already enrolled themselves as members. Amongst these are Mrs. Seymour, and Mrs. Hills. Why should not the ladies lend their most valuable assistance to so praiseworthy a movement? It is earnestly to be hoped that the noble example thus set to the ladies of New Westminster will be very generally emulated. Lists are open at the Public Library and at Mr. Clarkson's Book Store, and we feel sure that both of the Secretaries will be delighted to be besieged by fair applicants for membership. We hear the idea has been mooted of organizing a Committee of ladies to manage the Ladies' Department in future Exhibitions. The idea is an excellent one, and would, if carried out, doubtless contribute materially towards increasing the attractiveness and efficiency of these Exhibitions.

From China Direct.—The ship Trebolgan arrived in our outer harbour of Burrard Inlet, in ballast, direct from China, on Friday last. The Trebolgan is a large ship, 1200 tons register, and will take in a cargo of lumber, spars and shingles at Stamp's Mills, for the China market. She came direct to Burrard Inlet, expressly for Burrard Inlet lumber, and this is a result directly traceable, we understand, to a cargo of lumber which went to China, about a year ago, from Messrs. Moody & Co.'s Mills. Thus the magnificent lumber sent to various parts of the world is even now beginning to produce fruit, and there is little doubt that our lumber and spars will soon attain a character abroad which will create a great demand for them, and lead to the establishment of more mills. Let them come. We have enough to supply the world for at least a century.

Land Sale.—The Chief Commissioner of Lands and Works notifies the public—or, rather the few persons who ever see the periodical, or the fewer still who, seeing it, have the curiosity to read it—through the *Government Gazette* that certain suburban lots at Lillooet will be sold by auction at that town, on the 15th January next.—That's the only new matter in Saturday's *Gazette*.

Across the Continent.—On our first page will be found an article well worth reading, taken from the *Hamilton Spectator*, a paper of great influence published at Hamilton, Province of Ontario, Canada. The *Spectator* has for some time back given much attention to those great national questions intimately connected with this Colony; and it generally takes a broad and statesmanlike view of such subjects.

MUNICIPAL COUNCIL.

The Quarterly meeting of the Municipal Council was held on Monday, at 12 o'clock noon. The Quarterly Report of the Finance Committee was read and adopted. After the transaction of some routine business the Council adjourned and the President invited the members to partake of luncheon at the Colonial Hotel.

THE LUNCHEON.

Was served in Messrs Grelley & Arnaud's *best style*; and higher praise we could not bestow. There were present:—H. Holbrook Esq., President of the Municipal Council, supported by the Rev. Mr. Hayman and the Rev. Mr. Cave; the members of the Municipal Council, the Clerk, and Messrs Hitchcock, Fisher and Robson. After the cloth was removed the Rev. Mr. Hayman proposed the health of the President, coupled with some complimentary remarks respecting the manner in which that gentleman maintained the honors and dignity of his office. After a very happy response from the President several other toasts were given, and duly responded to, after which the party separated.

CHURCH CONSECRATION.

The interesting ceremony of consecrating Holy Trinity Church will, as has already been announced, take place to-day. The Bishop of Columbia will officiate, assisted by the Dean of Columbia, the Rev. Mr. Hayman, Rector of Holy Trinity, the Rev. Mr. Cave, of St. Mary's, and the Revs. Messrs Gribbell and Raymond of Victoria. The form of service will be the same as that used by the Bishop of London. A short sermon will be preached by the Bishop, and the excellent Choir of the Church will perform several pieces prepared for the occasion. We need hardly say that admission will be free to all, and that the services will be highly interesting, whether considered in themselves, or in their more immediate connection with the consecration of the first stone church, and the finest edifice of the kind erected on the British Pacific. Indeed, we are not sure that one might not go farther and say, the finest edifice of its size upon the coast! The hour fixed for the commencement of the service is 11:30 a. m. and it will be duly announced by the ringing of the bells.

Probably the Last Trip.—The str. Onward will sail for Yale to-day, and this will in all probability be her last trip for the present season. We learn that the water is falling fast, and, owing to the breaking away of a point of the bank at Jeffrey's Bar, the steamer experiences much difficulty in crossing that bar. There is every appearance of severe weather setting in, and navigation must soon close.

From Yale.—The str. Onward, Capt. Irving, arrived from Yale on Monday evening. She brought a few passengers and nine fat cattle from Sumass for Messrs. Dickinson Bros., but no later news of importance from the interior. A light fall of snow had taken place at Yale, and we understand it had fallen to a depth of about two feet at Boston Bar.

Did not Arrive.—The str. Enterprise did not arrive from Victoria last evening, but is expected early to-day. Should she not come in before noon we presume the str. Onward will not leave for Yale till to-morrow morning.

Fish.—The str. Hope, Capt. Insley, arrived from Langley on Monday with upwards of 200 barrels of salmon, belonging to Mr. Waller.

More Books.—His Excellency the Governor sent quite a large lot of books to the Public Library yesterday.

On the Way.—The barque Marmora, passed Deal, Oct. 7th, bound for British Columbia.—*Wilmer & Smith.*

Waltham watches and Ayer's Pills are said to be the highest specimens of American art, each of their kind; one in mechanics and the other in medicine. With a Walthan watch in one pocket and a box of Ayer's Pills in the other, you should be at your work in season, with health to persue it. —*Advertiser*, Norway, Me.

Something New.—The well known Publishing House of Harper & Bros. New York have commenced publishing a Weekly Paper of FASHIONS called *Harper's Bazaar*. It is the best thing in the Fashion line yet issued. Each number contains six pages of Plates, besides a sheet of Patterns and ten pages of reading matter. The first four numbers can be seen at G. C Clarkson & Co.'s Bookstore, where subscriptions are solicited. Price per year $7,50, per half-year, $4,00, to up country subscribers $8,50 per year and $4,50 per half year, postage paid. *

Holloway's Pills.—Mastery over Disease.—There is a constant tendency in the human body to pass from strength to weakness unless some means be adopted to counteract the "wear and tear," and other deteriorating influences. Holloway's Pills effect this admirably: they accomplish all the most exacting invalid can require. As alteratives they regulate the stomach and rouse the liver; as purifiers they improve the blood's quality; as aperients they promote peristaltic action, and as tonics they invigorate the nervous system. They have blessed with health thousands previously blasted by disease. In all cases of indigestion, palpitation, perspiration, headaches, heartburn, and functional obstructions, sufferers have Holloway's Pills as a resource to fall back upon which will never disappoint their most sanguine hopes.

If you wish the very best Cabinet Photographs, you must call on BRADLEY & RULOFSON, 429 Montgomery street, San Francisco.

CURE IS AT HAND!

HOLLOWAY'S OINTMENT

Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but repulsion. It enters the system as salt enters meat, and operates not locally only, but constitutionally purifying the whole system, neutralizing all depraved humours, and affecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are so prepared as to act in unison with it, facilitating and confirming the conquest of the disease.

Diptheria, Ulcerated Sore Throat and Quinsey.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkable, speedy and numerous, that these often fatal diseases are more easily cured by these medicines, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, providing it is very effectually rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.

In such cases the Ointment operates surely and with a rapidity that resembles magic. It should be rubbed into the parts affected after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous unguent have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk fevers, its action is wonderful. Glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart. Dropsy.

The last named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the application of this famous Ointment, invariably results in a cure. They act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism.

May be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. It is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours; eschew the use of coffee, and all stimulants. When these complaints are leaving the system, the virulence of the complaint frequently seems to increase.

Indiscretion of Youth.

Sores, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the complaining parts twice or thrice a day, keeping them covered with linen rag spread with the same.

The Pills must be taken according to the printed directions. The blood being in an impure state, perseverance is necessary. From humane motives letters of advice will be answered gratuitously. To save carriage the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Chapped hands,	Scalds,
Bad Breasts,	Contracted and Stiff Joints,	Sore Nipples,
Burns,		Sore-throats,
Bunions,	Elephantiasis,	Skin-diseases,
Bite of Mosquitoes and Sand-flies,	Fistulas,	Scurvy,
	Gout,	Sore-heads,
Coco-bay,	Glandular Swellings,	Tumors,
Chiego-foot,		Ulcers,
Corns (soft),	Lumbago,	Wounds,
Cancers,	Piles,	Yaws.
Chilblains,	Rheumatism,	

Sold at the establishment of PROFESSOR HOLLOWAY, 224, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s., each Pot.

⁂ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. de5ly

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully. Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes; "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by *ulceration of the uterus*. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

Dr. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes; "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

COLONIAL HOTEL,

S.T-1860-X.

"Jes' so!"—"Exactly!"—Solon Shingle said; they were there "every time." If he felt "owley" in the morning, he took Plantation Bitters; if he felt weary at night, he took Plantation Bitters; if he lacked appetite, was weak, languid or mentally oppressed, he took Plantation Bitters; and they never failed to set him on his pins square and firm.

A few bottles of PLANTATION BITTERS
Will cure Nervous Headache,
" Cold Extremities and Feverish Lips,
" Sour Stomach and Fetid Breath,
" Flatulency and Indigestion,
" Nervous Affections,
" Excessive Fatigue and Short Breath,
" Pain over the Eyes,
" Mental Despondency,
" Prostration; Great Weakness,
" Sallow Complexion, Weak Bowels, &c.
Which are evidences of

LIVER COMPLAINT AND DYSPEPSIA.

After a long research, we are able to present the most remarkable cure for these horrid nightmare diseases, the world has ever produced. Within one year over six hundred and forty thousand persons have taken the Plantation Bitters, and not an instance of complaint has come to our knowledge!

It is a most effectual tonic and agreeable stimulant, suited to all conditions of life.

The report that it relies upon mineral substances for its active properties are wholly false.

The original quality and high standing of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. Base imitators try to come as near our name and style as they can, and because a good article cannot be sold as low as a poor one, they find some support from parties who do not care what they sell. Be on your guard. See our private stamp over the cork.

T. H. DRAKE & CO.,
New York City,
Proprietors.

Sold by all Druggists, Grocers, country stores and dealers throughout the world.

REDINGTON & CO.,
San Francisco,
se18 General Agents for the Pacific Coast

Barnes' Magnolia Water.

A Toilet delight! The ladies' treasure and gentlemens' boon! The "sweetest thing" and largest quantity. Manufactured from the rich Southern Magnolia. Used for bathing the face and person, and to render the skin soft and fresh, to prevent eruptions, and to perfume clothing, &c.

It overcomes the unpleasant odor of prespiration.
It removes redness, tan, blotches, &c.
It cures nervous headache and allays inflammation.
It cools, softens, and adds delicacy to the skin.
It yields a subdued and lasting perfume.
It cures musqueto bites and sting of insects.
It contains no material injurious to the skin.

It is what every lady should have. Sold everywhere. Try the Magnolia Water once and you will use no other Cologne, Perfumery, or Toilet Water afterwards.

Sold by Druggists and Dealers everywhere.

DEMAS BARNES & CO.,
se19 Props. Exclusive Agenss, N. Y.

Lyons' Kathairon.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.
It prevents the hair turning grey and falling off.
It restores hair upon prematurely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car load, and yet its almost incredible demand is daily increasing, and there is hardly a country store that does not keep it, or a family that does not use it.

se19 E. THOMAS LYON, Chemist, N. Y.

Lyons' Extract Ginger.

LYONS' EXTRACT OF PURE JAMAICA GINGER—for Indigestion, Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and entire purity make it a cheap and reliable article for culinary purposes. Sold everywhere, at fifty cents per bottle. Ask for "Lyon's" Pure Extract. Take no other. See that the private U. S. Stamp of Demas Barnes & Co., is over the cork of each package. None other is genuine. se19

Mustang Liniment.

Have you a hurt child or a lame horse? Use the Mexican Mustang Liniment.

For cuts, sprains, burns, swellings and caked breasts the Mexican Mustang Liniment is a certain cure.

For rheumatism, neuralgia, stiff joints, stings and bites, there is nothing like the Mexican Mustang Liniment.

For spavined horses, the poll evil, ringbone and sweeney, the Mexican Mustang Liniment never fails.

For wind-galls, scratches, big-head and splint, the Mexican Mustang Liniment is worth its weight in gold.

Cuts, bruises, sprains and swellings, are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

"In lifting the kettle from the fire, it tipped over and scalded my hands terribly, * * The Mustang Liniment extracted the pain, caused the sore to heal rapidly, and left very little scar.

CHAS. FOSTER, 420 Broad St., Phila.

Mr. S. Litch, of Hyde Park, Vt., writes: "My horse was considered worthless, (spavin,) but since the use of the Mustang Liniment I have sold him for $150. Your Liniment is doing wonders up here."

All genuine is wrapped in steel plate engravings, signed G. W. Westbrook, Chemist, and also has the private U. S. stamp of Demas Barnes & Co. over the top. Look closely. Sold by all Druggists, at 25, 50 cts., and $100. se19

Lyons' Flea Powder.

DEATH TO FLEAS.—It is well known that Lyon's genuine Magnetic Powder, will perfectly destroy everything in the shade of fleas, ticks, bed-bugs, roaches, &c.; that it is perfect poison to the insect tribe, but entirely harmless to the human species and domestic animals. The genuine has the signature of E. Lyon, and the private stamp of Demas Barnos & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other. se19

PLANTATION BITTERS,
MAGNOLIA WATER,
LYON'S KATHAIRON

All the above articles for sale by H. W. SMITH and Dr. M. JONES Druggits, &c., New Westminster, B.C. and every dealer, in the Colony. se19

New Advertisments.

ADVICE GRATIS!

HOLLOWAY'S PILLS

To Purify the Blood.

These Pills have been placed by the common consent mankind at the head of all remedies for removing obnoxious poisons from the blood, and cleansing all the tissues of the body. They have saved thousands year after year from falling a sacrifice to the effects of dyspepsia, dysentary, diarrhœa, constipation, liver complaints, &c., a fact attested by myriads of witnesses. Excessive weakness and debility, the warnings of decreasing organic energy and vital decay, are restored and reanimated with vigor and healthful action in every organ throughout the system, by the restorative and exhilirating influence of this medicine.

Female Complaints.

All disorders of the sex, and diseases in every crisis perilous to the life and health of woman, youthful or aged married or single, may be radically and quickly cured without risk or trouble, by a few doses of these Pills, taken according to the printed directions.

Indigestion with languor and want of energy.

When taking these Pills, rub Holloway's celebrated Ointment over the pit of the stomach, and over the regions of the liver, on the right side under the ribs, and you will at once experience a change for the better in your digestion, spirits, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

DROPSY.

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are imperceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution; but it is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts.

Stomach, Liver, Kidneys and Bowels.

Those who suffer from bile and liver complaints, should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, removing all impurities, giving a healthy action to the liver; if bilious attacks be allowed to continue, serious casualties may arise, and the sufferer be consigned to a bed of sickness. In all disorders of the kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day; and the Pills taken in unison, will cure any complaints arising from these organs.

Puffy,—Shortness of Breath with Weakness.

Very bad symptoms, which if not corrected, may tend to some serious disorders of the heart, or other vital organs. Eat moderately of solids, take six Pills nightly for some little time; take plenty of fresh air with moderate exercise, and the human machinery will be quickly restored to health and vigor. Try this but for three days only, and the result will be marvellous.

Complaints incident to Children.

All complaints of children may soon be cured if care be taken to purify their blood, correct the action of the liver, and cleanse the stomach and bowels: a few doses of these famous Pills will immediately have the desired effect, particularly if parents be careful in not allowing them to eat of things which they know would be injurious to themselves.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague,	Female Irregularities,	Scrofula, or King's Evil,
Asthma,	Fevers of all kinds,	Sore Throats,
Bilious Complaints,	Fits,	Stone and Gravel,
Blotches on the Skin,	Gout,	Secondary Symptoms,
Bowel Complaints,	Head-ache,	Tic Douloureux,
Colics,	Indigestion,	Tumours,
Constipation of the Bowels,	Inflammation,	Ulcers,
Consumption,	Jaundice,	Venereal Affections,
Debility,	Liver Complaints,	Worms of all kinds,
Dropsy,	Lumbago,	Weakness from whatever cause, &c., &c.
Dysentery,	Piles,	
Erysipelas.	Rheumatism,	
	Retention of Urine,	

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s. 22s., and 33s., each Box.

⁂ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Box.

BRITISH PERIODICALS.
